

# The Vancouver HOG Report

Chapter Number 9022

June 1998

## From the Director...

Well here we are right in the middle of some great riding weather and I'm just not getting the miles on that I usually do.

As I sit here writing this, there's a tear welling up in my eye. You see, I was supposed to be in Milwaukee now, but life dealt one of those curve balls that caused me to cancel the trip. Then I think of what a dear friend, who also had to cancel her ride due to health problems, told me: "These things happen for a reason. It was just not meant for us to go." Thanks Ann!

Being the positive thinker that Ann is (and it's rubbing off a little), I'm sure that we'll both be back in the saddle and getting those quality miles on in no time. For now, it's just do what you can, when you can.

There have been some good times already this year, and there are more to come.

### BCCOM BIKE SHOW

If you made it to the 1st Annual Vancouver HOG Chapter Museum/BCCOM Bike Show/Mum's Tattoo Saturday Night BBQ, you know we had a great time

Jim Norman & Terry Rea (the happy couple??) cut the 95th Birthday cake at Trev Deeley Motorcycles while Dennis Hahn, Barry Sills and Elaine Norman look on.

with some guests from some of the other chapters joining us. The food was great and I didn't burn the steaks. The veggie burgers might be another matter. I haven't figured those out yet.

Thank you to Dan McNeil for all his (probably Rosealie's) work to get this event rolling and to all who helped with the cleanup. Thank you to everyone who brought the extra goodies that we all enjoyed and once again my memory is fading and I've lost the

note that I had all the names on, but you all know who you are. Thank you!

There's a rumour that next year there may even be live music, and we hope to see a whole lot more of our fellow HOG's from the Pacific Northwest and B.C. in attendance.

Then on Sunday we met with our friends from south of the border who couldn't make it up for the BBQ, for a special Sunday opening of the Trev Deeley Motorcycle Museum and then on to the BCCOM Custom Bike
