OFFICER REPORTS

SAFETY REPORT

TERESA VARTY *Safety Officer*

Ride Like a Pro!

1. Take a skills refresher course with a professional organization. Off-road courses are ideal for teaching road riders how to deal with the unexpected on the road—like obstacles or loss of traction. Pro-riding courses teach valuable defensive riding skills and increase your proficiency. <https://www.proride.ca/>
2. Ride defensively and confidently, not timidly or fearfully. Anticipate what other road users are going to do and be prepared to react appropriately.
3. Practice. Head to a vacant parking lot and practice slow speed and emergency maneuvers.
4. Ride within your skill level. Most of us don't have the skills or ability to tap into the full power of our bike. Proficiency and muscle memory take practice and saddle time to develop.
5. Ride smoothly. You can react a lot more quickly than any vehicle out there, but that doesn't mean you have to turn, cut in and out, and make quick moves that startle others.
6. Scan your environment, check your mirrors every five to seven seconds to keep track of what's going on around you. Mirrors don't tell the whole story, though, so do a visual scan as well.
